

# ALFA RIZI

UNDEFINED

Bandung Barat, Jawa Barat, Indonesia | [alfarizi.developer@gmail.com](mailto:alfarizi.developer@gmail.com) | [github.com/a1fariz](https://github.com/a1fariz) | [alfarizi.my.id](https://alfarizi.my.id)

## RINGKASAN PROFESIONAL

Full-Stack Developer berpengalaman merilis aplikasi web interaktif responsif dipadukan dengan backend throughput tinggi. Terbukti memadukan frontend modern (React 19, Next.js 14/16 App Router, Vite, Tailwind CSS v4) dengan arsitektur backend enterprise (Quarkus 3.15, microservices Spring Boot 3.2, Express.js). Fokus kuat pada interaktivitas UI dinamis, Web Audio/Speech API, integritas database transaksional PostgreSQL, dan otomatisasi deployment CI/CD.

## KEAHLIAN TEKNIS

|                                |                                                                                                    |
|--------------------------------|----------------------------------------------------------------------------------------------------|
| <b>Pengembangan Frontend:</b>  | Next.js 14/16, React 18/19, TypeScript, Tailwind CSS v4, Web Speech API, Web Audio API, Canvas API |
| <b>Rekayasa Backend:</b>       | Quarkus 3.15 LTS, Java 17, Spring Boot 3.2, Spring Cloud Gateway, Express.js, FastAPI              |
| <b>Database &amp; Caching:</b> | PostgreSQL, Redis 7, PL/pgSQL Triggers & Views, Drizzle ORM, Migrasi Flyway, ChromaDB              |
| <b>Keamanan &amp; State:</b>   | Autentikasi JWT, Double-Entry Escrow, Sewa Anti-Hoarding, RBAC, TanStack Query, BCrypt             |
| <b>DevOps &amp; Tools:</b>     | Docker, Docker Compose, GitHub Actions (CI/CD), Git, Vite, Postman, Linux CLI, OpenAPI             |

## PROYEK FULL-STACK UNGGULAN

|                                                                                                                                                                                                                                                                                                                                                                                                                                                   |      |
