

ALFA RIZI

FRONTEND DEVELOPER / REACT ENGINEER

West Bandung, West Java, Indonesia | alfarizi.developer@gmail.com | github.com/a1fariz | alfarizi.my.id

PROFESSIONAL SUMMARY

Frontend-oriented Software Engineering student (GPA 3.6/4.0) with strong experience building responsive, interactive, and high-performance web applications. Proficient in React 18/19, Next.js 16 (App Router), TypeScript, JavaScript (ES6+), and modern CSS (Tailwind CSS, animations, responsive design). Experienced in consuming RESTful APIs, client-side state management, Web APIs (Canvas, Web Speech), and data visualization.

TECHNICAL SKILLS

Frontend Core:	TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive UI/UX Design, Cross-Browser Compatibility
Frameworks & Libraries:	React 18/19, Next.js 16 (App Router), Tailwind CSS (v3/v4), Vite, Recharts, Lucide Icons
Browser & Web APIs:	HTML5 Canvas API, Web Speech API (SpeechSynthesis), LocalStorage, DOM Manipulation, SVG Animations
State & Integration:	React Hooks, Context API, REST API Integration, JSON Data Serialization, Form Validation
Tools & Workflows:	Git, GitHub, npm, pnpm, Postman, ESLint, esbuild, Linux CLI

FEATURED FRONTEND PROJECTS

Renshuu — Interactive Japanese Learning Platform <i>Next.js 16, React 19, TypeScript, Canvas API, Web Speech API</i> Demo: https://renshuu.alfarizi.my.id Code: github.com/a1fariz/renshuu	2026
- Built a responsive language learning web application using Next.js 16 App Router, React 19, and TypeScript. - Engineered an interactive HTML5 Canvas character tracing pad allowing users to practice Japanese handwriting with real-time clears and resets. - Implemented smooth SVG vector stroke-order animations utilizing KanjiVG stroke path coordinates. - Integrated the browser-native Web Speech API (SpeechSynthesisUtterance ja-JP) for instant, client-side Japanese pronunciation. - Designed a Spaced Repetition (SRS) review queue and offline data management system using LocalStorage and JSON import/export.	
Finance Feasibility — Real-Time Financial Visualization Dashboard <i>React 19, Recharts, Tailwind CSS, Vite, XLSX</i> Demo: https://finance-feasibility.alfarizi.my.id Code: github.com/a1fariz/finance-feasibility	2026
- Developed a dynamic single-page dashboard in React 19 and Tailwind CSS to compute and visualize complex investment models. - Constructed interactive charts (Recharts) displaying cash flow projections, payback period curves, and sensitivity metrics. - Integrated Firebase client authentication state and implemented client-side Excel report export using XLSX. - Built responsive UI components with modal dialogs, loading skeletons, and real-time form validation.	
ApexGrid — F1 Booking Frontend UI <i>React 18, Tailwind CSS, Vite, REST API, Context API</i> Code: github.com/a1fariz/ApexGrid	2026
- Developed a modern F1 ticket booking client interface with dark mode aesthetic and responsive race catalog cards. - Integrated protected routes using React Context API for JWT token management and role-based views (User/Admin). - Built administrative management screens for live race scheduling, circuit data updates, and booking status controls.	
Universe Interactive Website <i>HTML5, CSS3, JavaScript, REST API, Canvas</i> Demo: https://solar-explorer.alfarizi.my.id Code: github.com/a1fariz/projek-website-your-age-other-planet	2025
- Created an interactive space exploration website featuring scroll-driven animations and dynamic planetary calculation tools. - Integrated external astronomy REST APIs to display live planetary data with responsive mobile-first layouts.	

PROFESSIONAL EXPERIENCE

Lead Intern — IT & Business Operations <i>PT Resik Cemerlang (Pasim Group)</i>	2025 – Present Bandung, Indonesia
- Led an intern team of 5 handling operational support, user issue resolution, and system maintenance. - Maintained detailed incident records and performed quality control across digital specification databases. - Compiled weekly status reports illustrating operational trends and team task delivery.	
Lead Intern — IT Hardware <i>SMP Negeri 2 Batujajar</i>	2024 West Bandung, Indonesia
- Maintained school computer laboratory workstations, troubleshooting display, peripheral, and operating system errors. - Created a physical hardware maintenance logging system that reduced turnaround times for repeat workstation issues.	

EDUCATION & TRAINING

Universitas Nasional PASIM <i>Associate Degree in Informatics Management (D3) — GPA: 3.6 / 4.0</i>	Expected May 2027 Bandung, Indonesia
PUB Intensive Technical Scholarship (2024 – Present): Web Programming (HTML5, CSS3, JavaScript), Data Structures, Software Engineering.
